#### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121: It has been determined that the presence of plasticizer represents different inventions

- I. Claims 1-15, drawn to compositions containing plasticizer, classified in class 424, subclass 401.
- II. Claims 16-28, drawn to compositions that do not contain plasticizer, classified in class 424, subclass 78.03.

Invention II differs from invention I by not having a plasticizer. Inventions I and II are capable of supporting different patents within the art.

The inventions are distinct, each from the other because of the following reasons:

2. Because these inventions are distinct for the reasons given above and the search required for Group I might not be required for Group II, restriction for examination purposes as indicated is proper.

3. Attempt was not made to call the applicant because of the status of the application.
